## ***"It's The Economy, Stupid!"***

That famous phrase by Bill Clinton was repeated over and over again as the United States and the world economy came out of one of the worst periods of hyper-inflation and high deficits we have known since World War II.

In the 1990s governments of all nations were united in a push to cut unnecessary spending, lower deficits and ease inflation that was eating away at people's paycheques. In turn, this allowed governments in the 2000s to lower taxes and the western world, including Canada, went through an extraordinary period of wealth. These fiscal policies even led to a quick economic recovery after the 2008 Great Recession.

In 2021 Canada has experienced the worst economic output and job losses since the 1930s Great Depression. Are we in a fiscal position to recover? The answer from the governing Liberal-NDP coalition of Trudeau/Singh is to ignore every economic lesson we have learned in modern times. Instead of the sound fiscal policy of governments in the 1990s and 2000s, they have taken the attitude of ***"Run Up The Credit Card!"***

They are spending hundreds of billions of borrowed money to fund their pet projects in Toronto, Montreal and Ottawa. In just a few short years, the Liberal-NDP coalition has run up more national debt than all previous governments combined. They have done this with no concern about future inflation that will eat away at your paycheques. Our children and grandchildren will bear the consequences of these policies.

**The Conservative Party understands economic and fiscal responsibility.** Under the last Conservative Government, Canada quickly weathered the Great Recession and returned to balance budgets while keeping taxes low for you and your family. This prevented interest rates from going up and inflation setting in.

When it comes time to form Government again, the Conservative Party is ready to bring Canada back on track with sound fiscal and economic policy. This is a plan to end cronyism, reduce wasteful government spending, lower taxes, and keep inflation in check. It is a plan to **SECURE OUR ECONOMY AND SECURE OUR FUTURE.**

## **MESSAGE FROM YOUR MP**

Dear Friend,

Over the past several months, I have been out knocking on your doors and touring local businesses. I have spoken to thousands of people in Saskatoon West and the overwhelming message is: why would the Liberal-

NDP coalition force an election upon us this summer?!

It's frustrating when the West is ignored by Ottawa.

I urge you not to let apathy keep you from participating in our democracy. Send a message from us to Ottawa that we are tired of the corrupt, wasteful practises of the Liberal-NDP coalition.

I invite you to take and respond to my survey card attached. I read each response personally and value the feedback that constituents share with me. If you need my help on any federal issue, please contact my office at (306) 975-6555 or email: brad.redekopp@parl.gc.ca. Thank you again for entrusting me with the honour and privilege to represent you in our Parliament.
